

PropertiedClass.hpp

```
graph RL; Entity_hpp[Entity.hpp] --> PropertiedClass_hpp[PropertiedClass.hpp]; PropertySlot_hpp[PropertySlot.hpp] --> PropertiedClass_hpp;
```

The diagram illustrates a dependency structure where two header files, Entity.hpp and PropertySlot.hpp, both include PropertiedClass.hpp. PropertiedClass.hpp is represented by a black box, while the other two are in white boxes with red borders. Blue arrows point from the white boxes to the black box.

Entity.hpp

PropertySlot.hpp
