

libecs::EventBase

```
graph BT; PE[libecs::ProcessEvent] --> EB[libecs::EventBase]; SE[libecs::StepperEvent] --> EB;
```

The diagram illustrates a class hierarchy. At the top is a black box labeled 'libecs::EventBase'. Below it are two white boxes with gray borders: 'libecs::ProcessEvent' on the left and 'libecs::StepperEvent' on the right. Two blue arrows point from the top of each white box to the bottom of the black box, indicating inheritance.
