blockCipher

```
graph BT; blockCipher[blockCipher] -.->|raw| blockCipherRaw[blockCipherRaw]; blockCipher -.->|ctr, cbc, ecb| blockCipherMode[blockCipherMode];
```

The diagram illustrates a class hierarchy. At the bottom is a gray box labeled 'blockCipher'. Two dashed purple arrows point upwards from it. The left arrow points to a white box labeled 'blockCipherRaw' and is labeled 'raw'. The right arrow points to a white box labeled 'blockCipherMode' and is labeled with 'ctr', 'cbc', and 'ecb' stacked vertically.
