The diagram features two red circles of different sizes. The larger circle is positioned in the upper half of the image, and the smaller circle is positioned below it, to the left. Two black lines intersect the circles: one line passes through the upper part of the larger circle and the upper part of the smaller circle, while the other line passes through the lower part of the larger circle and the lower part of the smaller circle. The text 'Text at the position 100,100 (relative to the template!)' is placed to the left of the larger circle, and a second, smaller version of the same text is placed to the left of the smaller circle.
