`'quote-transposition.ly'`

Quotations take into account the transposition of both source and target. In this example, all instruments play sounding central C, the target is a instrument in F. The target part may be `\transposed`. In this case, all the pitches (including the quoted ones) will be transposed as well.

`'quote.ly'`

With `\quote`, fragments of previously entered music may be quoted. `quotedEventTypes` will determines what things are quoted. In this example, a 16th rests is not quoted, since `rest-event` is not in `quotedEventTypes`.
