SoftMaker FreeOffice 2016 for Linux

SoftMaker Office Standard 2016 for Linux

SoftMaker Office Professional 2016 for Linux

Thank you for choosing **SoftMaker FreeOffice 2016**, the free, fast, and friendly office suite that's compatible with Microsoft Office.

We hope you enjoy using SoftMaker FreeOffice 2016 as much as we did designing and developing it. You may use it permanently, both at home and in your business.

You can track all new developments around SoftMaker FreeOffice at **www.freeoffice.com**

## SoftMaker Office Standard 2016 for Linux

In addition to free-of-charge FreeOffice 2016, there is also a commercial edition, **SoftMaker Office Standard 2016**, which adds important features:

- **Spell checking** using high-quality commercial dictionaries covering 20 languages

- **Synonym dictionaries** (thesauri) in eight languages

- Not only import, but also seamless **export** of the modern Microsoft formats DOCX, XLSX, and PPTX

- Documents are presented in **tabs**, just like in a web browser.

- The **extended sidebar** gives you a bird's eye view over your document and its stylesheets.

- Advanced table functions for sorting tables and converting between text and tables

- Power-user functions in PlanMaker: Formula auditing, watch window, data consolidation, scenarios, text to columns and more

- Improved **formatting and image functions**

- Insert **charts** not only in PlanMaker, but also in TextMaker and Presentations

- Exclusive **Thunderbird add-ons** for easy filing of e-mails and lightning-fast folder navigation

- **Free technical support** by SoftMaker

- ... and much more!

## SoftMaker Office Professional 2016 for Linux

SoftMaker Office **Professional** 2016 expands upon the features of the standard edition by adding **four Berlitz dictionaries** for translations from/to English, German, French, Italian and Spanish.
